

SMT PCB DIVIDER

MS-Series

► MS-20

Suitable for small modules and thin board. Up to 200mm

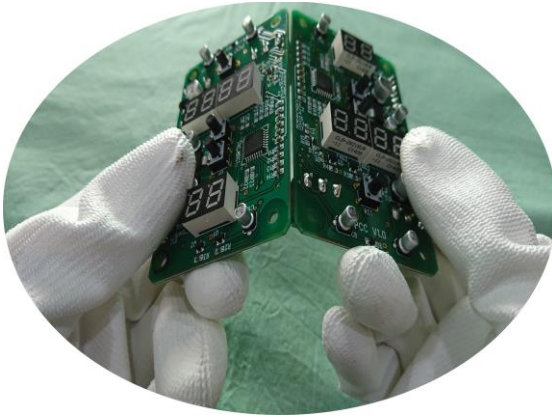

Free from the microcracks on the SMT board

■ Features

- Complete separation by the V-cut line only without changing the PCB layout.
- Reducing cost with suitable model according to the PCB size.
- Very safety working with guides and blade cover
- Easy cutting without electric power and space limit. low parts cost
- Slide the table softly. Cutting the PCB easily.
- There is no external shocks (bending, breaking, press). The stress is almost zero.

■ Standard

MODEL	MS-20	MS-25	MS-33	MS-40
Cutting length (Max)	200mm	250mm	330mm	400mm
Components limit(mm)	up15/down11	up15/down16	up30/down16	up15/down16

✓ With hands : Damaged

✓ All kinds of PCB available (with V-cut line)

■ Specification

MODEL				
	MS-20	MS-25	MS-33	MS-40 (Special order)
PCB cutting length (Max)	~200mm	~250mm	~330mm	~400mm
Size (L x W x H)	708 x 288 x 273mm	825 x 346 x 338mm	1045 x 406 x 396mm	1100 x 410 x 374mm
Weight	18KG	30KG	45KG	45KG
Upper/Lower Blade	GV2010 / GCL2020	GV2013 / GCL2025	GV2016 / GCL2033	GV2016 / GCL2040
